Rebellion Timepieces Predator 2.0 3 Hands Carbon Dakar: Compromise-free passion

Rebellion Timepieces, the official Rally Dakar timekeeper for the fourth year in a row, rolls out an exclusive numbered limited series and invites us to pursue the epic adventure.

Shake up conventions! With its Predator 2.0 3 Hands Carbon Dakar, Rebellion Timepieces fast-tracks its never-say-no realm onto the routes of the world's hardest endurance race. This time round, its design, forever inspired by motorsport, is much more powerful. And, like all the watches assembled in the brand's workshops, the watchmakers have yet again gone for cutting-edge technology to trigger emotion and boost style.

To top it all off, Rebellion Racing entered two cars for the 45th Dakar, breaking the mold of the system in place. For the first time ever, the two crews crossed the rally finish line. A fantastic feat for an amateur team! To center stage this intensely-mechanical and human exploit even more, the Rebels have unveiled a watch that's perfectly cut out for this incredible adventure.

The Predator 2.0 3 Hands Carbon Dakar, issued in just 20 pieces, boasts spectacular three-dimensional scenography. Its dial, a pure fusion of the spirit of the race, flaunts a honeycomb architecture featuring XL-sized sand-hued indexes and numerals. This color, conjuring up the Saudi Arabian landscapes that the Rebellion Racing team sped across in their two Toyota Hilux DKR T1+, is also showcased on the 48 mm-diameter carbon-crafted case set off with a camouflage pattern. This exquisitely-complex case optimally protects the Swiss Made caliber beating at a frequency of 28,000 vibrations an hour. This accurate, sturdy self-winding mechanical movement delivers at least 48 hours of power reserve to the hour, minute and second hands as well as to the date displayed in its aperture at 3 o'clock.

And, to heighten its "desert fox" character even more, the Predator 2.0 3 Hands Carbon Dakar is worn on a matching textile strap with Velcro® closure. Even more, the well-known rally logo adorns the dial at 6 o'clock. A plate embedded on the case band illustrates the watch issue number. Totally one-of-a-kind, unrelenting, compromise-free: every single stylistic detail in this watch embraces Rebellion Timepieces' passion for Dakar!
