

RE-VOLT

3 HANDS DELAGE

# RE-VOLT

## 3 HANDS DELAGE

Rebellion Corporation and the french hyper-cars brand Delage are pleased to announce a partnership between the brands. In terms of watchmaking, Rebellion Timepieces designed the official Delage D12 watch based on the Re-Volt model, the house's flagship collection, which will be produced in a limited edition of 30 pieces and offered as a priority, as an option, to the 30 future owners of the 30 Delage D12 which production has started.

With its bold design, the Re-Volt 3 Hands Delage offers a captivating insight into the uncompromising mechanical universe of Rebellion Timepieces and Delage cars. The strong masculine silhouette of its rectangular case serves as a framework for a mechanical scenography in relief highlighted by the light which then enhances each of its elements.

*"I am very happy and very proud that a brand of the quality of Rebellion has agreed to become our partner"* declared Laurent Tapie, re-founder of Delage Automobiles. *"The Rebellion philosophy corresponds perfectly to that of Delage, in particular that of the D12, by combining an original "disruptive" design and high technicality."*

Alexandre Pesci, CEO and President of Rebellion Corporation added on: *"We are delighted to announce our exciting partnership with Delage. This collaboration will merge the timeless elegance of Swiss watchmaking with the unrivaled craftsmanship and innovation of French Hypercars. Together, we will create extraordinary experiences for those who appreciate the finer things in life. Stay ready for the remarkable journey that lies ahead!"*
