RE-VOLT

WINTER BLUE

Rebellion Timepieces illuminates watchmaking with its set unique piece watches.

Eternal diamonds or precious stones with intense colors? Setting requires technical rigor and know-how. The presence of precious stones sublimates a watch and the wrist that wears it. Watch and jewel become one!

As for the Re-Volt Winter Blue, 328 sparkling baguette-cut blue sapphires illuminate its case. The result? A Re-Volt that explodes watchmaking codes and presents a resolutely modern and fresh personality, both sober and exuberant. At the heart of its light and sturdy case accompanied by a white leather strap, the in-house hand-wound movement precisely orchestrates the time data.
