RE-VOLT

WINTER WHITE

Rebellion Timepieces illuminates watchmaking with its set unique piece watches.

Eternal diamonds or precious stones with intense colors? Setting requires technical rigor and know-how. The presence of precious stones sublimates a watch and the wrist that wears it. Watch and jewel become one!

Diamonds are forever!

330 baguette-cut white diamonds, invisible set, embodies watch styling aesthetics with full transparency, enhancing its skeletonized movement that continually brings to mind the technical and stylistic audacity of car chassis. Technicality, lightness, and purity of design: the Re-Volt Winter White refuses to compromise. A perfect incarnation of the very essence and philosophy of Rebellion. Smaller than existing models, its square shape and stylishly bold manufacture movement are beyond compare.

Re-Volt knows how to stand out from the crowd thanks to its “in-house” calibre, muscular silhouette, high-tech nature, and exceptional performance with its 48-hour power reserve. Every detail expresses and embodies a passion for motorsport.
